What were your favorite childhood games?

What were your favourite childhood games?

Are there any special items in the house that you grew up in...that you remember?

Were there any fads during your youth that you remember vividly?

Did you have any pets growing up? If so, what kind and what were their names?

What did your family do for fun when you were a child?

Did you and your friends have a special hangout where you liked to spend time? Where was it and what did you do there?
