HELPFUL HINTS

- 1. Create an empty frame using the brush option.
- 2. Select both the main frame and the background, then make them the same size and shape using the change option.
- 3. In your example, select the Artistic License Flippy Frames Kit.
- 4. Select the empty frame you created. Then go to the Frames tab in Contents and double-click the desired frame to apply it.
- 5. Fill the frame with a paper or photo of your choice.
- 6. To flip the frame:
 - Select the photo spot.
 - Right-click and choose Effects > Flip.
 - Use the brush option, then click OK.
 - The frame will flip to suit your page layout.
- 7. To change the frame, return to step 4 and select a different frame.
